

Press Release

SGPR4 / Singapore / November 2009

APEC Leaders hope to halve gas house emissions by 2050

The recent Asia Pacific Economic Conference (APEC) Summit highlighted some key issues on environment and sustainability, which will have a significant impact on Smart Grid development. Both US President Barack Obama and Japanese Prime Minister Hatoyama agreed to expand their research and development cooperation "to provide solutions to the challenges of global energy security and climate change." The US and Japan will cooperate on smart grid development, carbon capture and storage, advanced nuclear fuel cycle technologies, renewable energy sources, energy efficient buildings, and next generation vehicles.

ATTEND **SMART GRIDS 2009** and find out strategies and steps towards attaining a more energy efficient and sustainable grid. Key areas to be addressed include:

- Regional Highlights On Smart Grid Initiatives
- Smart Systems & Technology
- Smart Grid Deployment
- Leading International Smart Grid Projects
- Asia's Roadmap Towards a Smarter Grid
- The Vision For A More Intelligent Network

The **SMART GRIDS 2009** conference will cover the latest in Smart Grid Development with industry's most leading edge professionals present at the event, from the **USA, Belgium, Portugal, Italy, Australia, Korea, Japan, Hong Kong, China, India, and Singapore** and others through our presenters including:

- Lawrence Wong, Chief Executive, **Energy Market Authority (EMA) Singapore**
- George Arnold, National Coordinator for Smart Grid Interoperability, **National Institute of Standards and Technology (NIST), Department of Commerce, USA**
- Dr. Manuel Sanchez-Jimenez, Policy Officer, **European Commission**
- Graeme Marshall, Director, Smart Grid Initiative, **Department of the Environment, Water, Heritage and the Arts, Australia**
- Han Jin-hyun, Director General for Energy Industry Policy, **Ministry of Knowledge Economy, Korea**
- Duncan Botting, Chair, **Scottish-European Green Energy Center, UK**
- ML Chan, Executive Director – Smart Grids, **Joint US-China Cooperation on Clean Energy (JUCCE), China**
- Todd Arnold, Senior VP Smart Grid & Customer Systems, **Duke Energy, USA**
- David Mohler, Chief Technology Officer, **Duke Energy, USA**
- John Baker, Chief Strategy Officer, **Austin Energy, USA**
- Livio Gallo, COO Infrastructure & Networks Division, **Enel Italy.**

Catered for senior level decision makers from utilities, energy, governments, power and technology, the conference will bring forth insights, knowledge exchange and interactive panel discussions on:

- Initiatives and directions for intelligent networks in the region
- Insight to the impact of global smart grid policy and standards

- Leading international smart grid deployment from utilities and policy makers from USA, Europe, Australia and Asia
- Smart grid deployment for the region with key Asian governmental representatives
- Roadmap towards attaining a more intelligent and reliable network
- Microgrids as a potential business opportunity for power producers in Asia.

About the Singapore International Energy Week

The annual Singapore International Energy Week (SIEW) is a leading energy conference that provides a platform for policymakers, business leaders and academics to exchange ideas, strategies and best practices that will help shape global and industry energy agendas. Jointly organized by the Energy Market Authority (EMA) and the Energy Studies Institute (ESI) from 16 to 20 November 2009, SIEW features a comprehensive schedule of clean energy-focused conferences, exhibitions and networking sessions from a diverse cross-section of energy industry leaders. More information about SIEW is available at <http://singapore.iew.com.sg/>.

About IBC Asia

IBC Asia (S) Pte Ltd is the Asian business arm of Informa Group plc, a publicly listed company on the London Stock Exchange. Informa is the largest publicly-owned organiser of conferences and courses in the world, with an output of over 12,000 events annually. Informa publishes over 2,500 subscription-based information services including academic journals, real-time news and structured databases of commercial intelligence. Informa's book business has more than 55,000 academic and business titles in print. For more information, visit www.informa.com or www.ibt-asia.com.
